Do you wonder how  
experience playing  
Scrabble shapes your brain?

In cooperation with the Calgary Scrabble Group, The Neural Network Recovery Laboratory at the University of Calgary are looking for Scrabble players of all skill-levels and ages to participate in our study.

### You can participate if you:

- are 18 - 85 years old
- are right handed
- have normal vision  
(glasses are OK)

### What is involved?

- Recording of electrical brain activity
- Recording of brain activity in an MRI

**Honorarium:** Participants will receive a cash honorarium for their time.

For more information or to participate in this study please contact:
