NOTE: In the W and L columns, please keep a running total of the wins and losses so far for each player.

Team Game Instructions

- * In each round, two players play against the third. Both sides receive 25 minutes.
- * Each player should play on a team twice and play solo once.
- * In each round, the solo player receives a full win or loss and full spread. The two team members receive **HALF** a win or loss and **HALF** the spread. *When dividing odd spreads, do not round.* This preserves the zero-sum verification and recognizes the advantage teams generally have.
- * Team members may talk quietly on their turn, but may not talk on opponent's time except with opponent's permission. **DO NOT DISTURB THE REST OF THE CLUB.**
